> [Priorities Reg. 28, Direction 15] 4 X 5 COMMERCIAL CAMERAS

The following direction is issued pursuant to Priorities Reg. 28:

Applications for CC ratings for 4 x 5 commercial cameras and other press type cameras from persons qualified for ratings under paragraph (f) of Priorities Regulation 28 have reached such a volume that granting such ratings would preempt an undue proportion of the total production of these types of cameras. Consequently, the Civilian Production Administration will not grant a CC rating for these types of cameras except in cases of emergency under the special provisions of paragraph (h) of the regulation, or for export under paragraph (i).

Issued this 5th day of June 1946.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYS-TEM

[Priorities Reg. 33, Direction 3 as Amended June 5, 1946]

USE OF HH RATINGS FOR RADIATION FOR USE IN THE VETERANS' EMERGENCY HOUSING PROGRAM

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of building materials and building supplies for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

(a) Purpose of this direction. Priorities Regulation 33 provides for the assignment to builders of preference ratings to secure materials, listed on Schedule A of that regulation, which are required for the in the Veterans' Emergency Housing Program. Among these items is radiation. This direction explains under what circumstances orders bearing HH ratings for radiation must be accepted and also what the restrictions are in connection with the sale of radiation by producers, distributors and jobbers.

(b) Definitions. For the purposes of this direction:

(1) "Producer" means a person owning or operating facilities in which radiation is manufactured.

(2) "Distributor" or "jobber" means a person who buys radiation from a producer for resale. If a producer owns and operates factory branch sales offices other than his central factory sales office, such offices shall be considered to be distributors.

(3) "Radiation" means, unless otherwise specified, cast iron radiation (tubular and convector types) and extended surface convector radiation (consisting of a heating element of tube and fin construction). Any accompanying metal enclosures and grilles are included.

(c) Prohibition on extension of HH ratings by distributors. A distributor or jobber who receives an HH rated order for radiation

shall not extend the rating.

(d) Use of HH rating by heating contractor and dealer. A heating contractor, heating dealer or other person who has been authorized to use an HH rating in accordance with paragraph (d) of Priorities Regulation 33, may use the rating to get radiation, subject to the provisions of that regulation.

(e) Handling of HH rated orders by producers. A producer who sells radiation only to distributors, jobbers or manufacturers of pre-fabricated housing need not accept an HH rated order for radiation. This is the general rule. But a producer who sells any portion of his production to persons other than distributors, jobbers or manufacturers of pre-fabricated housing must sell that portion according to the following rule: After February 1, 1946, for cast iron radiation and after June 9, 1943, for extended surface convector radiation, at least 70% of all radiation sold or delivered by the producer to persons other than distributors, jobbers or manufacturers of pre-fabricated housing must be sold or delivered on HH rated orders

(f) Set-asides by 30bbers or distributors. (1) An adequate reserve stock of radiation must be maintained by distributors and jobbers to fill orders bearing HH ratings. Consequently, a distributor or jobber must set aside and reserve for a period or twentyone days, to fill orders bearing HH ratings, not less than 70% of the radiation in each shipment received by him from the producer. Direct shipments from a producer to a customer of a distributor or jobber for the account of the latter shall be considered as shipments to, and deliveries by, the distributor or jobber. Until the end of each such twenty-one day period, referred to above, he must accept all HH rated orders up to the reserved quantity regardless of whether such orders call for delivery within the twenty-one day period, but he need not accept HH rated orders for radiation in excess of the reserved quantity.

(2) Any radiation which the distributor or jobber is not required to set aside, and any radiation in the set-aside for which HH ratings are not received in tho set-aside period, may be disposed of without regard to HH ratings. Orders rated AAA, MM, or CC must be filled from this balance in that order of preference in accordance with Priorities Regulation 1. A distributor or jobber may not refuse to accept an HH rated order on the ground that he has no radiation in stock, but he must accept the order for delivery out of the 70% set-aside of a later shipment from the producer.

(g) Calculation basis. Calculations of quantities of radiation required by this direction shall ordinarily be on the basis of square feet of heating surface (as rated by the producer). However, where a producer delivers, or a distributor or jobber receives, extended surface convector heating elements without enclosures, the calculations as to these elements chall be on the bacis of the presincer's billing price to distributors or jabbers.

(b) This direction not applicable to AAA ratings. Nothing in this direction effects AAA rated orders.

PART 944 - REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYS-

[Priorities Reg. 23, Direction 16]

WATER-WELL DRILLING EQUIPMENT

The following direction is issued pursuant to Priorities Reg. 23:

Applications for CC ratings for water-well drilling equipment, rotary and percuriton type, from percons qualified for ratings under paragraph (f) of Priorities Regulation 28 have reached such a volume that granting such ratings would preempt an undus proportion of the total preduction of this equipment. Consequently, the Civilian Fra-duction Administration will not grant a CO rating for this equipment except in cases of emergency under the excelal provisions of paragraph (h) of the regulation, or for export under paragraph (i).

PART 944-REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYS-

[Priorities Reg. 28, Schedule I, 23 Amended June 5, 1949]

## CRITICAL PRODUCTS

(a) Introduction. The table in this Schedule lists certain of the critical products which the Civilian Production Administration has determined to be in such tight supply that they are serious threats to the national economy. (This Schedule supersedes former Directions 1 through 5 and 7 through 12 to PR-28 covering critical products.) When effective assistance of other lands is not practicable, the CPA may assign CC preference ratings under paragraph (e) of Priorities Regulation 23 for material which is needed to sustain or increase the production of these products. In addition to the rules explained in paragraph (b) below, the general rules in paragraphs (c) and (d) of Priorities Regulation 23 governing the application for and assignment of CC ratings are also applicable. Especially important is paragraph (d) (1) of Priorities Regulation 28, requiring a determination that the use of substitute and less scarce materials is not practicable, that reasonable efforts have been made to get the required item without a rating, and that a rating is required to obtain the item by the latest date and in the minimum quantity practicable after taling into concideration material in inventory and available without a rating. (b) Explanation of table.

Column I-Critical products. Column I lists the critical preducts for waica CC ratinst the chiral products for which CO ret-ing may be granted to custain or investing production. When "epochlized mechinest" for another critical product is listed in Col-umn I, it includes only mechinery and equip-ment designed cololy for the production of that critical product. It does not include general types of equipment suitable for other use even though a particular pleas of comp-ment is designed and built expressly for a producer of the critical product.

Column II—Persons elicible. Column II

ctates the persons who may apply for CC returns. Where Column VI indicates that CC rating may be examined for construction, the builder or contractor may apply instead of the percent listed.

Column III-Production materials. If the word "von" appears in Column III, the CPA may accion CC ratings to the person named in Column II to get production meterials needed to make the item listed in Calumn I regardless of the coplicant's reminum economic rate of operation. Where the coplicant regularly cells materials as maintenance, regair or operating supplies for the item he makes, CO ratings may also be essigned to him for such supplies or for materials needed to make them. Applications for CC ratings for textile fabrics or yarns chould be made under Priorities Regulation 234, and CC ratings may be assigned under paragraph (d) of that Regulation in accordance with subpergraph (d) (5) (i).

(2) If the word "no" appears in Column III, CC ratings will be added for produc-

tion materials only as provided in Friorities Regulation 23. The came rule applies to any production materials expressly excluded from Column III.

Column IV—Capital equipment. (1) If the word "yes" appears in Column IV, the CPA may easign CC ratings to the person named in Column II to get capital equipment which cither (i) will result in a substantial increese in preduction of the item listed in Column I, or (II) is needed to revise present operating equipment which is in danger of imminent treekdown.

(2) Where the word "no" appears in Col-umn IV, CC ratings will be assigned for conthat equipment conly as provided in Priorities Ecgulation 23. The came rule applies to any capital equipment expressly excluded from Column IV.

Column V-MRO. (1) If the word "yes" eppears in Column V, the CPA may assign CC ratings to the person named in Column If to get maintenance, repair and operating sumplies (LIEO) which he needs to use in malifuz the item listed in Column L

(2) If the word "no" appears in Column V, CC ratings will be easigned for IRO only as provided in Priorities Regulation 23.

Calumn VI—Construction. (1) If the word "yes" appears in Column VI, the CPA may

emign CC ratings to the percon named in Column II, or to his builder, for material needed for incorporation in new plants or in expanded or mederalized old once waste increased production of the item lated in Column I will result, or where the construction is necessary to prevent a loss of production.

(2) If the word "no" appears in Column VI, CO ratings will be assigned for construction materials only as provided in Practice Regulation 23.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYS-

[Priorities Reg. 33, Direction 1A, as Amended June 5, 1946]

## SOFTWOOD PLYWOOD

The fulfilment of requirements for the defense of the United States has created a shortage in the supply of softwood plywood for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

(a) What this direction does. Priorities Regulation 33 and Direction 8 to Priorities Regulation 33 provide for the assignment to

builders and prefabricators of priorities assistance to secure materials listed on Schedule A of PR 33 and List I of Direction 8 to PR ,33 which are required for use in the Veterans' Housing Program, Among these items is saftwood plywood. Tale direction provides that the manufacturers of coftward plywood shall produce a percentage of their total production in-construction and deer panel grades and reserve a percentage of those grades for certified orders from pre-fabricators, distributors, cabinet manufacturers, stock door manufacturers and housing contractors. It provides that the coftwood plywood reserved and the product into which it is incorporated, may only be cold on certified orders or HH rated orders.

This direction does not apply to plywood not in construction and door panel grades and thicknesses, such plywood must be cold and delivered in accordance with the rules in Prioritics Regulation 1.

(b) Definitions for the purpose of this direction. (1) "Softward plyward" means laminated vencers of any species of softward united with a bonding agent to produce

(2) "Construction plywood" means plywood of one or more coftwood panels, 12 feet and shorter and without external cealer treatment of the following grades: Interior (moisture resistant) type as follows: 14" sanded or  $v_{B''}$  unranded wallboard;  $v_{B''}$  sanded or  $v_{B''}$  unranded wallboard;  $v_{A''}$ sanded or  $\gamma_{10}$ " uncanded cound one elde plypanel;  $\gamma_{3}$ " sanded or  $\gamma_{10}$ " uncanded cound one side plypanel;  $\gamma_{10}$ " cheathing;  $\gamma_{3}$ " sheathing; 1/2" sheathing and 10" cheathing; and Exterior type 1/4" canded or 6/16" unsanded sound one side plypanel and %" sanded or 710" uncanded sound one side plypanel.

(3) "Door plywood" means coftweed plywood, Interior (moisture recistant) and Ex-terior type without external scaler treatment of 14" sound two sides door plypanel. (4) "Plywood manufacturer" means a

person engaged in the manufacture of coft-

wood plywood.
(5) "Prefabricator" means a percon engaged in the manufacture of prefabricated houses, panels or ecctions who has been granted priorities assistance on Form CPA-4415 to build prefabricated houses, panels or sections.

(6) "Housing contractor" means a builder (applicant) who has been directly assigned an HH rating by CPA, FHA or NHA. It also includes a general contractor who has been directly authorized by such a builder to use the HH rating for the whole job. It does not include a subconfractor authorized to uso

the HH rating for a part of the job.
(7) "Distributor" means a person who buys and stocks softwood plywood for recale as plywood at wholesale or retail.

"Cabinet manufacturer" means a person who produces kitchen cabinets for builtin installation in housing.

(9) "Stock door manufacturer" means a person who consumes softweed plyweed in the manufacture of standard hours doors.

(10) "Square footage" means measurement on a %" rough basis.
(11) "Certified order" means any order for

the delivery of softwood plywood bearing the certificate prescribed in paragraph (j).

(12) "Percon" means any individual, part-nership, association, business trust corpo-ration, governmental corporation or agency or any organized group of percons whether incorporated or not.

## Plywood Manufacturers

(c) Plywood manufacturers recervo production. The following conditions will govcrn the amount of construction plywood and dear plywood, plywood manufacturers shall produce and receive for certified orders:

(1) Each coftwood plywood manufacturer chall receive in his total over-all production of coftwood plywood in square footage for the month of April, 1846, and for each calendar month thereafter, time and supplies cufficient to produce and deliver within ouch menth; (i) at least 45% of his expected menthly production of contraction plywood in the form of construction plywood of which not more than 20° of the construction plywood plywood of which not more than 20° of the construction plyword may be in exterior type; (ii) at least 5" of his expected monthly production of coftword plyword in the form of door ply-wood, for delivery on certified orders. The CPA may from time to time change

cuch percentages by amendments published in the Federal Register prior to the first

day of any month.
(2) Every plywood manufacturer must hold 69. of his production of construction plycard in cquare footage in any month for delivery on certified orders. A plywood manufacturer must accept and ship such cartified orders in preference to all other orders (except AAA) to the extent that such orders do not require more than 60% of his production of construction plywood for that month. When a plywood manufacturer has accepted certaied orders for construction plywood for this amount, he must not accept additional cartified orders for construction plyward produced in that month. Any portion of the pivwood manufacturer's reserve which is not required to fill certified orders received in the month it was produced, may be cold only on uncertified and unrated (except AAA) orders.

(3) A plywood manufacturer must reserve 4973 of his total production of construction plywood in equare footage beginning with the month of April, 1946, and for each calendar month thereafter for delivery only on uncertified and unrated orders from dis-

(4) A plywood manufacturer must hold his receive production of door plywood for cortified orders from door manufacturers or distributors and must accept and ship such certified orders in preference to all other orders (except orders rated AAA) to the extent that such certified orders do not require more than the monthly recurve production of door plywood. Any quantities of door plywood manufactured which, by the 20th of any month in which production is reserved, are not required to fill certified orders received before that time, may be delivered by the plywood manufacturer as he may desire subjest to all applicable orders and regulations of the CPA.

#### Prefabricators

(d) The following provisions tell how prefabricators may place with a plywood manufacturer or distributor certified orders for

construction plyword:

(1) A prefebricator may place certified or-(1) A presentation may place estimate di-ders with a physical manufacturer or a dis-tributor for construction physical in the amount for which he has received priorities acclutance on Form CPA-4415. A prefabricator must not speally delivery dates (at his plant or warehouse) on certified orders more than 30 days before the time the construction plywood is needed for incorporation into the prefabricated houses, panels, or cactions. Furthermore, a prefabricator must not place certified orders for construction plywood in which is specified a delivery date later than during the third calendar month after the time when the purchase order is placed.

(2) A prefabricator must use construction plywood obtained on certified orders in the production of prefabricated houses, panels or sections to be sold on orders rated HH.

(3) A prefabricator may not apply or extend an HH rating for construction plywood.

#### Housing Contractors

(e) Housing contractors. The following provisions tell how a housing contractor may place certified orders or HH rated orders with a plywood manufacturer or distributor for

contruction plywood.

- (1) A housing contractor may apply the HH rating on orders for construction plywood to a distributor, but not to a plywood manusacturer, or a housing contractor purchasing in not less than carload lots, may place certified orders for mill shipment delivery each month starting with the month of April 1946, with a plywood manufacturer or a distributor, in an amount in square footage not in excess of the total construction plywood required to meet his construction schedule for housing for which he has received priorities assistance on Form CPA-4386. A housing contractor may not place HH rated or certified orders for construction plywood except for use in kitchen cabinets and bathroom and kitchen flooring. He may not apply the HH rating or use a certificate for an amount in excess of 300 square feet per house or apartment. If kitchen cabinets are purchased as millwork the total permissible amount of construction plywood must be reduced by the amount of plywood in the cabinets.
- (2) A housing contractor must not specify delivery dates (at site or warehouse) on certified orders or HH rated orders, more than 30 days from the time that the construction plywood is needed for incorporation into the housing. Furthermore, the housing contractor must not place certified orders for construction plywood in which is specified a delivery date later than the third calendar month after the time when the purchase order is placed. A housing contractor may place certified orders for construction plywood only to the extent that HH rated orders have not been placed with a distributor.
- (3) A housing contractor must use the construction plywood obtained on certified orders or HH rated orders on housing construction for which the HH rating was authorized.

#### Cabinet Manufacturers

(f) Cabinet manufacturers. The following provisions tell how a cabinet manufacturer may obtain authority to place certified orders with a plywood manufacturer or a distributor for construction plywood for use in drawer bottoms of bullt-in kitchen cabinets and how the cabinets must be sold:

(1) A cabinet mahufacturer wishing to place certified orders with a plywood manufacturer or a distributor for construction plywood to be used in the manufacture of drawer bottoms for kitchen cabinets, shall apply to the CPA for authority to place such orders. A cabinet manufacturer must apply to CPA before May 10, 1946, unless already authorized, for the months of May and June, 1946, and for calendar quarters thereafter must apply at least 20 days before the first day of the quarter, by letter stating: (i) average monthly consumption of construction plywood in drawers for built-in kitchen cabinets in year 1940 (required in first application only); (ii) average anticipated monthly production of kitchen cabinets in units to be produced in the period for which authorization is requested, and (iii) total requirements in '%" basis of construction plywood for drawers for built-in kitchen cabinets in item (ii) above. Such application will be processed equitably. A cabinet manufacturer must not specify delivery dates (at plant or warehouse) on certified orders more than 30 days before the time the construction plywood is needed for incorporation into the kitchen cabinet draw-

ers. Furthermore, the cabinet manufacturer must not place certified orders for construction plywood in which is specified a delivery date later than during the third calendar month after the time the purchase order was placed.

(2) Authorizations to cabinet manufacturers will bear a serial number which must be inserted by the cabinet manufacturer in the place provided in the certificate required by paragraph (j) below.

Note: Subparagraph (3), formerly subparagraph (2), redesignated June 5, 1946.

(3) A cabinet manufacturer must use the construction plywood received on certified orders in the production of built-in kitchen cabinets suitable for housing. The cabinets manufactured from the construction plywood must be held for sale as millwork and sold in conformity with paragraph (e) (2) of Direction 1 to PR 33 providing for the sale of millwork.

## Door Manufacturers

(g) Door manujacturers. The following provisions tell how door manufacturers may place with plywood manufacturers or distributors certified orders for door plywood for the manufacture of standard house doors and how the doors must be sold.

(1) A door manufacturer may place certified orders for door plywood for delivery in each month beginning with the month of April, 1946, with the plywood manufacturer or a distributor for an amount in square footage not in excess of 10% of the amount in square footage of door plywood consumed by him in the manufacture of standard house doors in the year 1940.

(2) A door manufacturer must use each month, all the door plywood received on certified orders in the manufacture of standard house doors. The doors so manufactured must be held for sale as millwork and sold in conformity with paragraph (e) (2) of Direction 1 to PR 33 providing for the sale of millwork.

#### Distributors

(h) Distributors. The following provisions tell how distributors may place orders for construction plywood, and how the construction plywood may be sold:

(1) A distributor may place uncertified and unrated orders for delivery each month for construction plywood with a plywood manufacturer. Every distributor must reserve 75% of the construction plywood received in any month for delivery on certified and rated orders. A distributor must accept all certified and rated orders which are received before the end of the month up to the reserve quantities regardless of whether such orders call for delivery within that month. A distributor, however, may not accept for delivery in any month orders rated MM for more construction plywood than 5% of the quantity reserved in that month. In addition, he must not accept certified or rated orders (except AAA) for construction plywood for a quantity in excess of the reserve. Any construction plywood which a distributor is not required to reserve, and any construction plywood in the reserve for which certified and rated orders are not received during the month, may be delivered by a distributor only on uncertified and unrated (except AAA) orders.

(2) A distributor who has received a certified order for construction or door plywood may place the certified order with a plywood manufacturer to get the construction or door plywood which will be delivered direct to consumer subject to the applicable

inventory regulations.  $\Lambda$  distributor may not place a certified order with a producer for replacement of inventory.

(1) Newcomers. (1) A person who in the year 1940 was not established as a cabinet manufacturer or a door manufacturer, and who wants to place monthly certified orders for construction plywood for use in kitchen cabinets or for door plywood for use in standard house doors, may apply to CPA for authorization to place certified orders for a calendar quarter. Authorization will be issued on a quarterly basis and application by letter must be filed at least 10 days before the first day of the calendar quarter for which authorization is asked. The letter should state: (1) location of plant; (ii) amount of equipment and its production capacity to manufacture kitchen cabinets or house doors; (iii) line of kitchen cabinets to be produced; (iv) anticipated monthly production of house doors or kitchen cabinets in which plywood is required; (v) total requirements on a 3%" basis of plywood for house doors or kitchen cabinets for the next current quarter. Such application will be processed in an equitable manner.

(2) A person receiving authorization to place a certified order under paragraph (1) (1) above, must hold kitchen cabinets or doors manufactured for sale in conformity with the provisions of paragraph (1) (2) and (g) (2) above, respectively.

#### Certification

(j) Certification. To certify an order for construction plywood or door plywood under this direction, the following certificate must be endorsed on or attached to the purchase order, or sales ticket. Certification must'be signed manually or as explained in MR 7. However, the standard form described in that regulation may not be used in place of the certificate described in this direction. The certificate described in this direction may not be waived by paragraph (f) under PR 7. The serial number must be inserted by cabinet manufacturers, door manufacturers and persons holding authorizations on Form CPA-4386 or Form CPA-4415 in the place provided in the certificate.

Prefabricators, housing contractors, cabinet manufacturers, door manufacturers and distributors who place certified orders calling for delivery of construction plywood or door plywood, must use a certificate reading substantially as follows:

The undersigned certifies to the supplier and to the CPA that he is a \_\_\_\_\_\_ (prefabricator, housing contractor, cabinet manufacturer, door manufacturer, or distributor) and that the quantities of construction plywood or door plywood covered by this order (together with all other certified orders for construction plywood or door plywood for delivery in the months specified in this order) do not exceed the amount he has been allowed under Direction 1A of PR 33 with the provisions of which he is familiar.

## Miscellancous

(k) Miscellaneous. The following provisions generally affecting plywood manufacturers, prefabricators, housing contractors, cabinet manufacturers, door manufacturers and distributors should be carefully read:

-Serial number

(1) Status of certified orders. Certified orders for the purpose of this direction are subject to the rules for acceptance and rejection of rated orders as provided in Priorities Regulation 1 as if they were rated orders. The order of precedence where orders are received by distributors, cabinet manufacturers and door manufacturers is (subject to any

provision of this direction limiting the quantity of orders that need be accepted) as follows: (i) AAA; (ii) LIM; (iii) CC, HH and certified orders which are of equal value.

(2) Applicability of regulations. Except as otherwise required by this direction Priorities Regulations 1 and 3 govern the use of ratings and the acceptance, scheduling and filling of orders placed with distributors. All other applicable regulations and orders of the Civilian Production Administration must be observed.

- (3) Extension of rated orders. Ratings (except AAA) may not be applied or extended to a plywood manufacturer for construction or door plywood. However, any person who has received a rated order for the delivery of construction or door plywood may extend the rating to his suppliers (except to a plywood manufacturer) to get plywood which he will deliver on that order subject to applicable inventory regulations. If a person has made delivery of construction or door plywood on a rated order, he may extend the rating to his suppliers (except to a plywood manufacturer) to replace the amount in his inventory subject to the applicable inventory regulations. A millwork manufacturer who has received a rated order (except AAA) for millwork or who has delivered millwork on a rating (except AAA), may not extend the rating (except AAA), for construction or door plywood for incorporation into millwork. These rules supersede paragraphs (d) and (d) (1) of Priorities Regulation 3 on the extension of ratings.
- (4) Violations. Any person who willfully violates any provisions of this direction, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 1349—ELECTRICAL GENERATION, TRANSMISSION, CONVESION AND DISTRI-BUTION APPARATUS

[MPR 82, Amdt. 10]

#### WIRE AND CABLE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 82 is amended in the following respects:

The following paragraph (h) is added to section 16:

(h) Procedure where OPA establishes industry-wide increases in the price of lcad. (1) Manufacturers of lead covered wire or cable, excluding armored cable, sold in terms of dollars-and-cents amounts per unit of length, may, after June 3, 1946, the effective date of an amendment to Revised Price Schedule 69, raising the maximum price of lead. increase their maximum net prices, which would be in effect for each 1000 feet of such lead covered cable in the absence of this paragraph, by the collars-and-cents amount obtained by applying the following formula, and rounding out the resultant figure, to the nearest ten cents:

Formula: 177 x (T+D) x T x ¢ where "T" represents the thickness, expressed in inches, of the lead cheath, "D" represents the inside diameter, expressed in inches, of the lead cheath, and "¢" represents the total increase in cents per pound of lead established by the amendment to RPM 69.

Example: Accume that on June 3, 1946, the OPA effectuates an industry-wide increase of 34 per paund in the price of lead. Accume that the maximum net price of the applicable lead covered cable would be 100 dollars for each 1000 feet without considering the provisions of this paragraph, and further accume the inside diameter of the lead cheath to be one inch, with the thickness of the lead sheath being one-fourth of an inch. The amount the manufacturer may edd to the aforceald net price would be obtained as follows:

177 x (½+1) x ½ x 3, or 01.63, which, when rounded out to the nearest ten cents, becomes 01.70. The new maximum net price would therefore become 0101.70 for the thousand feet.

- (2) Recellers. Resellers may increase their maximum net prices for wire and cable, which would be in existence in the absence of the foregoing provisions, by the dollars-and-cents amount by which their net invoiced costs have been increased as a result of the foregoing provisions.
- (3) Increases in maximum prices obtained as a result of the provisions of subparagraphs (1) and (2) shall be separately stated on the invoice furnished in transactions affected thereby.

This amendment shall become effective June 4, 1946.

Issued this 4th day of June 1946.

§ 15.8 Use and occupancy of real property. Claims for damage to real property incident to the use and occupancy thereof by the Government under a lease, express or implied, or otherwise, are payable under the provisions of this part, even though legally enforceable against the Government as contract claims. Claims payable under this section may, if deemed in the best interests of the Government be processed as contract claims through the General Accounting Office. Claims for rent of real property are not payable under this part.

§ 15.9 Contract claims. Claims for damage to or loss or destruction of property founded in contract, express or implied, except those under §§ 15.7 and 15.8, are normally not payable under the provisions of 'his part. Any claim which is apparently within the provisions of the act of March 20, 1946 but appears to be founded in contract, express or implied, will be forwarded with related files and recommendations by or through the Commander of the cognizant Coast Guard district or activity to the Commandant for appropriate administrative action.

§ 15.10 Other noncombat activities. Claims for damage to or loss or destruction of property, or for personal injury or death, though not caused by acts or omissions of military personnel or civilian employees of the Coast Guard are payable under the provisions of this section if otherwise incident to the activities of the Coast Guard. In general, claims within the above category are those arising out of authorized activities which are peculiarly Coast Guard activities having little parallel in civilian pursuits and out of situations which historically have been considered as furnishing a proper basis for the payment of claims, such as claims for damage or injury arising out of, and which are natural or probable results of incidents of, maneuvers and special exercises, practice firing, operation of aircraft, use of instrumentalities having latent mechanical defects not traceable to negligent acts or omissions, explosions of ammunition, movement of vehicles designed especially for military use, and use and occupancy of real estate.

§ 15.11 Foreign claims: Claims for damage to or loss or destruction of property, or for personal injury or death, arising out of accidents or incidents occurring in foreign countries when the Coast Guard was not operating as a part of the Navy, are within the provisions of this part.

§ 15.12 Claims for military personnel or civilian employees. Claims for dam-

age to or loss or destruction of personal property of military personnel or civilian employees of the Coast Guard occurring incident to their service will first be considered under the provisions of Perconnel Claims Regulations, which, if applicable take precedence over the provisions of this part. Such claims found not to be payable under provicions of the Personnel Claims Regulations may then be considered under the provisions of this part. Claims of such personnel and employees for damage to or loss or destruction of property not incident to their service are payable under the provicions of these regulations, on the same basis as are claims of persons not military personnel or civilian employees of the Coast Guard. Claims for medical, hospital and burial expenses on account of injury or death of military personnel or civilian employees of the Coast Guard if not within the provisions of other statutes or regulations, are payable under the provisions of this part on the same basis as are claims of persons not military personnel or civilian employees of the Coast Guard.

§ 15.13 Depredation. Claims for damage to or loss or destruction of property, by persons subject to military law, caused by riotous, violent, or disorderly conduct, or acts of depredation, willful misconduct, or such reckless disregard of property rights as to carry an implication of guilty intent, are not payable under the provisions of this part.

§ 15.14 \*\*Iledical expenses\*\*—(a) Included. Items properly allowable include, if reasonably necessary, reasonable in amount, and actually incurred: (1) Transportation by ambulance or otherwise, from the scene of the accident or incident to a physician or hospital, and to and from residence to physicians or hospitals, for examination or treatment; (2) services performed by physicians, surgeons, dentists, laboratory technicians, anesthetists, massaurs, and registered and practical nurses; (3) physiotherapy; (4) X-ray and roentgenological examination and treatment; (5) laboratory tests; (6) medicines; (7) other reasonably necessary medical expenses.

tion; (7) other reasonably necessary burial and funeral expenses.

(b) Excluded. No amount may be allowed, as an item of the claim, for any portion of the expense of burnal otherwise paid by the United States.

§ 15.17 Statute of limitations Chims must be presented in writing within one year after the occurrence of the accident or incident out of which the claim arises, except that if the accident or incident occurs in time of war, or if war intervenes within one year after its occurrence, a claim may, if good cause for the delay is shown, he presented within one year after peace is established. (See § 15.1 (c)).

§ 15.18 Claims for subrogees—(a) Settlement to be only in name of insured. Settlement will be made solely with the insured, rather than the insurer or with both the insured and insurer, in cases of damage, loss, destruction, injury, or death covered by insurance. No injury will be made into, nor determination made of, the relative interests as between insured and insurer. The entire claim, including any portion thereof insured against, will be filed by or on behalf of the insured and payment of the entire amount approved will be made in the name of the insured. Evidence of authority to file a claim on behalf of the insured may be established by a power of attorney, insurance policy provision, or other documentary evidence satisfactory to the approving authority. The foregoing provisions will be equally applicable in cases of subrogation based other than on insurance.

(b) Excluded. Claims by subrogees in their own right are not within the scope of this part and will not be considered.

(c) Claims accruing prior to March 20, 1946. The provisions of paragraphs (a) and (b) of this section are, however, inapplicable to claims growing out of accidents or incidents which occurred prior to March 20, 1946.

§ 15.19 Approval of classes. (a) Subject to appeal to the Secretary of the Treasury, claims under the pravisions of these regulations may be approved or disapproved by the Commandant, Assistant Commandant, or the Chief Counsel, U. S. Coast Guard. These claims when approved as aforesaid will be forwarded to the appropriate authorized certifying officer for certification as provided in Chapter XVI, Pay and Supply Instructions, U. S. Coast Guard.

(b) Prior to the payment of any approved claim within the provisions of this part, each of the following conditions must be fulfilled:

(1) The amount of the damage, loss, or destruction, or the amount payable on account of personal injury or death, must be determined.

(2) The amount approved to be paid must not exceed \$500 (\$1,000 in time of war).

(3) The claim must have been presented within one (1) year after the occurrence of the accident or incident out of which the claim arises except as provided in § 15.17.

(4) The claimant must accept, in full catisfaction and final settlement, the

amount approved, if less than the full amount claimed.

§ 15.20 Claims in excess of \$500. Claims in excess of \$500 (\$1,000 in time of war) if otherwise within the scope of this part may be reported by the Secretary of the Treasury to Congress for its consideration. Any claim which is asserted in an amount in excess of \$500 (\$1,000 in time of war) will be forwarded promptly with the related file, and with comments and recommendations, by or through the office of the cognizant District Commander to the Commandant for appropriate action, except in the case of independent activities, where the claim will be forwarded directly to the Commandant. To the extent that the claim is for damage to or loss or destruction of property, or for reasonable medical, hospital, or burial expenses actually incurred, within the provisions of these regulations, except as the aggregate amount exceeds \$500 (\$1,000 in time of war) such action may include the reporting of the claim in a deficiency bill for consideration by Congress without the necessity of the claimant's initiating private relief legislation. Elements of such a claim to compensate for loss of wages, pain and suffering, permanent disability, and death not being within the scope of these regulations will not be included in any claim so reported, and no private relief legislation therefor will be sponsored by the Treasury.

§ 15.21 Government immunity. Except when the claim arises under a contract or is otherwise specifically permitted by statute, no person may have a legally enforceable claim against the United States for property damage or personal injury arising out of the activities of the Coast Guard. Accordingly, unless the claim falls within the scope of this part or arises under contract, the claimant has no recourse against the government except through the enactment of private relief legislation by the Congress, which legislation the Treasury Department does not sponsor except in cases set forth in § 15.20.

§ 15.22 Action by claimant—(a) Claims for damage, loss or destruction of property. Claims for damage to or loss or destruction of property may be presented by the owner of the property or his duty authorized agent or legal repre-sentative. The word "owner" as so used, includes charterers, bailees, lessees, mortgagors, and conditional vendees, but does not include mortgagees, conditional vendors, and others having title for purpose of security only. The claim, if filed by an agent or legal representative, should show the title or capacity of the person signing and be accompanied by evidence of the appointment of such person as agent, executor, administrator, guardian, or other fiduciary.

(b) Claims for personal injury or death. Claims for personal injury or death may be presented by the injured person or his duly authorized agent or legal representative. Claims for medical, hospital and burial expenses, not presented by the injured person or his duly authorized agent or legal representative, may, if it appears that no legal representative has

been appointed, be presented by any person who, by reason of family relationship, has in fact incurred the expenses for which claim is made.

(c) Form of claim. Claims should be submitted by presenting in triplicate a statement in writing stating the claimant's address and setting forth the amount of the claim and, so far as possible, the detailed facts and circumstances surrounding the accident or incident, indicating the date and place, the property and persons involved, the nature and extent of the damage, loss, destruction or injury, and the agency which was the cause or occasion thereof. Form, CG-2880 will be used whenever practicable.

(2) Damage to personal property. In support of claims for damage to personal property which has been or can be economically repaired, the claimant should submit an itemized signed statement or estimate of the cost of repairs; if not economically reparable, or if the property is lost or destroyed, the value thereof at the time of loss or destruction, should be stated.

(3) Damage to real property. In support of claims for damage to land, trees, buildings, fences and other improvements, and similar property, the claimant should submit an itemized signed statement of estimate of the cost of repairs; if not economically reparable, the value both before and after the accident, of the land damaged, or of the improvement or other property if it can be readily and fairly valued apart from the land, should be stated.

In support of claims for damage to or destruction of marine property which has been or can be repaired or replaced, the claimant must submit an itemized statement or estimate of the cost of repairs or replacement, supported by an appraisal or survey report of disinterested, competent persons familiar with the subject matter.

If the property is so severely damaged that it is not susceptible of being repaired, its value as of the time of the accident must be stated and established by competent evidence. Whenever a claim includes a charge for detention or loss of earnings during repairs of damage to a vessel, the claimant must support such item with a statement as to:

(i) The date when the vessel was disabled.

(ii) The name and location of the repair yard.

(ii) The date when repairs were commenced.

(iv) The date when repairs were com-

pleted.
(v) Whether or not while undergoing

(ix) Whether or not during the course of undergoing collision repairs the vessel could have been employed, and an explanation submitted showing the identity of the person who offered to give such-employment; the terms of the offer; time of prospective service and

rate of compensation. (x) If the vessel was under charter at the time of collision or was otherwise employed, the claimant should state each of the details set forth last above, and as well submit a statement of operating expenses which were, or would have been, incurred to earn such hire, specifically stating wages and bonuses which would have been paid during the period of employment (including the master's), the value of fuel which would have been consumed during the period of employment, the value of consumable stores which would have been used during the period of employment, port charges which would have been incurred during the period of employment and which would have included such items as harbor fees, wharfage, dockage, sheddage, stevedoring, towage, pilotage, inspection, tollage, lockage, anchorage and moorage, grain elevation, storage, and customs fees. All such statements or estimates should be supported by statements or reports of disinterested, competent witnesses, preferably marine surveyors, familiar with the type of property damaged or destroyed. (7) Personal injury. In support of claims for personal injury or death, the claimant should submit a written report by attending physician, showing the nature and extent of injury, the nature and extent of treatment, the degree of permanent disability, if any, the prognosis, and the period of hospitalization or incapacitation, attaching itemized bills for medical, hospital, or burnal expenses actually incurred.

(8) Signatures. The claim and all other papers requiring the signature of the claimant should be signed by the claimant personally or by a duly author-

All motor vehicle accidents will be reported by the driver of the Coast Guard vehicle on Standard Form 26, (Driver's Report-Accident-Motor Transportation) A report on Standard Form 26 will be filed even though the driver of other vehicle states no claim will be filed or even if only Government owned vehicles are involved. An accident will be reported regardless of who was hurt, what property was damaged or to what extent, where it occurred, or who was responsible. The report will be referred to the Commanding Officer of the activity for such disposition as he deems appropriate under § 15.25 of these regulations.

(b) Marine casualties involving Coast Guard vessels and private vessels or instrumentalities. Whenever there is a casualty involving a Coast Guard vessel and a private vessel or instrumentality, irrespective of the extent of damage, or wherein the fault of said casualty lies, the Commanding Officer or officer in charge of the Coast Guard vessel will make a report of the same by dispatch to the Commander of the district in which the collision occurred, or, if without the limits of a Coast Guard district directly to the Commandant. In all cases involving possible disciplinary action against military personnel of the Coast Guard, a board of investigation will be convened. In no case will a board of investigation and an investigating officer conduct simultaneous and duplicitous investigations. # TITLE 43—PUBLIC LANDS: INTERIOR Chapter II—Bureau of Reclamation

[Order 2195]

PART 401—Applications for Entry on Public Lands and Water Rental

QUALIFICATIONS FOR APPLICANTS

MAY 10, 1946.

Regulations governing the administration of subsection C of section 4 of the act of December 5, 1924 (43 Stat. 702; 43 U.S.C. 433) Qualifications of applicants for entry to public lands of Federal Reclamation projects.

In conformance with the increased significance of settlement activities in the Federal Reclamation program, and to adjust previous regulations and practices to present economic conditions and settlement requirements, this order amends and supersedes all previous regulations relative to the selection of settlers pursuant to the act of December 5, 1924, particularly regulations pursuant to Circular Letter No. 1455, September 12, 1925.

General policies. Project lands available for homesteading shall be opened to entry in a manner that will afford:

(a) Preference to veterans in accordance with the provisions of the act of September 27, 1944, Public Law 434, 78th Congress, and other preferences authorized by law. (58 Stat. 747; 43 U.S.C. Sup., 279-283)

(b) Reasonable assurance of success by the prospective settler through selection of entrymen on the basis of qualifications as to industry, experience, character, capital, and other pertinent requirements.

(c) Opportunity to homestead on a Federal Reclamation project primarily to qualified veterans who probably would not otherwise have opportunity to establish a family-size farm, due consideration being given to the desirability of securing in any new farming community a number of veterans who are well ex-

perienced farm operators able to assist new settlers through demonstrating desirable irrigation farming methods and practices adapted to the locality.

Boards of examiners. Authority has been delegated to the Commissioner of the Bureau of Reclamation to appoint Boards of Examiners to assist in the selection of settlers. Each Board so appointed shall consist of not less than two citizens residing on or in the vicinity of the project who are deemed to have public spirited interest in successful development of the project, the welfare of project settlers, and the special problems of veterans desiring opportunities to homestead on Federal Reclamation projects. A third member of each Board, who shall be the secretary of the Board, shall be a Bureau of Reclamation official, preferably a senior member of the local project staff. Citizen members, additional to the minimum number of two, may be appointed to any Board when, in the judgment of the Commissioner of Reclamation, such additional membership is desirable in view of the volume of work or the variety of problems involved in the selection of settlers.

The Boards of Examiners, after appointment as herein provided, shall be called into active status by the Regional Director sufficiently in advance of the opening of any project lands to settlement so that the members of the Board will have opportunity (1) to be fully informed of the character of the settlement opportunities and any special problems connected therewith, and (2) to make suitable recommendations as to the procedure for settler selection.

The duties of the Boards of Examiners include:

(a) Recommendation, through the Regional Director and Commissioner of the Bureau of Reclamation, for approval by the Secretary of the Interior, of standards as to the industry, experience, character, and capital and other qualifications for a successful entryman, such standards to be in conformity with and in furtherance of the general policies governing the settlement of Reclamation homesteads.

(b) The examination, approval, or rejection of applications for Reclamation homesteads and the award of farm units to qualified applicants.

(c) Recommendation to the Commissioner of Reclamation, or other appropriate official of the Bureau of Reclamation, concerning any matters connected with the settlement of the project, with a view to increasing the opportunities for success by the prospective settlers, for the establishment of family-size farms, and for carrying out the preference provisions of reclamation laws. Recommendations concerning standards as to industry, experience, character, capital and other requisite qualifications of a successful entryman, the selection of applicants and the award of farm units shall be made by the Boards of Examiners only by action of a majority of the members of said Boards.

Qualification as to capital. The standards relative to the amount of capital needed for reasonable assurance of success shall be established at the lowest

amount consistent with protection of the settler, during development of his farm unit, from excessive hardship or failure due to inadequate funds for the expenses of family living and of needed farming operations. Recognition shall be given. through explicit definition in the standards for each project land opening, to useful assets other than cash, such as equipment, and to credit facilities that, by reason of their terms and conditions. would not interfere with proper development of the farm units, and repayment of construction charges. Recognition shall also be given to the opportunities for employment in connection with project construction, and for initial homesteading with minimum housing and other facilities that could be progressively improved in subsequent years. Consideration shall be given in the recommendations of the Board of Examiners relative to the qualification as to capital of any predevelopment of public lands by the Bureau of Reclamation that would reduce the amount of capital initially required by settlers to bring their farm units into income-producing condition.

Filing of application. The Board shall require each applicant for entry to public lands, including preference-right veterans, to file a written application with the Bureau of Reclamation on a form furnished for that purpose, which, among other things, must state with respect to the applicant: Age; status of citizenship; veteran preference, if any; martial status; number of children—ages, sexes; number of dependents; ownership of farm lands; value of farm lands; years of farming experience as owner, renter, laborer, farmer's son; financial situation—assets, liabilities; and reference as to character and industry.

Board decision and right of appeal. The decision of the Board as to the rating of applicants and the awards of farm units shall be reduced to writing and a copy forwarded to the applicant by registered mail. Evidence of service of such notice of decision shall be the registry return receipt signed by the applicant or his agent, or registered letter addressed to applicant at record address and returned unclaimed.

The Board's decision shall be final unless written appeal from such decision is made to the Regional Director of the Bureau of Reclamation and filed within such period, not exceeding 60 days from receipt of the Board's decision, as may be prescribed in the public notice or order opening project lands. The Regional Director's action on the appeal shall be final.

No entry for public lands within a Federal reclamation project shall be accepted by the local land office until the applicant therefor has satisfied an examining board and received its written approval of his qualifications to enter the farm unit awarded.

Procedure after application is approved. Approval by the Board of an application (followed by the filling of water right or water rental application when required) will entitle the applicant to file homestead application at the designated local District Land Office for the farm unit awarded to him. Such

homestead application shall be made within a period of time to be specified by the public notice, except in those cases where a preference right is being exercised, in which event the period pro-vided by law for the exercise of the preference right shall control.

Failure to so make such homestead application within the period prescribed will entitle the Board to approve another application for the same unit and continue this procedure, if necessary, until an approved applicant makes a homestead entry.

Order opening lands. Each public notice or order opening project lands will contain detailed instructions as to the qualifications necessary for prospective entrymen, including required standards of industry, experience, character and capital, and the procedures under which such qualifications will be determined.

Such a record, when signed by the employee as a true and accurate statement of the hours he has worked, shall be kept and preserved by the employer and, with respect to the hours worked by the employee away from supervision, shall be considered to meet the requirement of these regulations insofar as they require the recording of the hours worked each day, provided that the employer has used such means as are reasonably available to determine that the hours actually worked by such an employee have been accurately recorded.

and

Whereas, within 15 days following the publication of the said notice of opportunity to show cause, the Administrator received objections and requests for hearing,

### OFFICE OF PRICE ADMINISTRATION.

[MFR 120, Corr. to Order 1343] BITULUNOUS COAL IN DISTRICT 8

ESTABLISHMENT OF MAXIMUM PRICES

Order No. 465 under Maximum Price Regulation No. 120 was corrected by order on March 1, 1944; and a review of the maximum prices and mine index numbers contained in that order for the various mines of the applicant, Columbia Coal & Mining Company, has recently been made. It now appears that because of the abandonment of one of its mine openings and an incomplete plan of the former Bituminous Coal Division to reassign one of the index numbers to the Dixie Flash Mine opening on the same property, some confusion has existed in properly identifying coals of the respective mines, and because of this the applicant correctly assumed that Mine Index No. 586 should apply to the Dixie Flash Mine. Therefore, applicant has used this index number throughout the past. The matter is probably further aggravated by the omission of a substitute index number for index "266," which was deleted from Order 465 by the order of correction dated March 1, 1944. Order 465 was subsequently revoked by Order No. 906, which continued the original adjustment. This adjustment was again revoked and further continued by Order No. 1343. In order to prevent further confusion, it is deemed appropriate to make an additional correction by inserting in the presently effective Order No. 1343 the proper maximum prices, the mine name and its index number. The maximum prices for the Dixie Flash Mine will, of course, be the same as those originally intended, and as granted for Mine Index Nos. 826 and 3612.

After due consideration of the foregoing and pursuant to §§ 1340.207 (a) and 1340.210 (a) (6) of Maximum Price Regulation No. 120; It is ordered:

Order No. 1343 under Maximum Price Regulation No. 120 is hereby corrected in

the following respect:

The following is inserted immediately below mine index number "540" and above mine index number "590" in the following manner:

Mino	Mine namo	dio-

'A copy of this correction has been filed today with the Secretary of the Office of Price Administration, Washington, D. C., where it is open to inspection by the public.

This correction shall be effective as of April 16, 1945.
